

# NYC Taxi News Says “LET’S FIGHT FOR INTRO 94!”

## Intro 94-2026

NYC Council Intro 94 (2026)

This bill, sponsored by Council Members Gale Brewer and Farah Louis, seeks to establish a formal regulatory framework for "robotaxis" before they are widely deployed on city streets. Key provisions include:

**Licensing Requirements:** Prohibits the Taxi and Limousine Commission (TLC) from licensing any autonomous vehicle for hire unless it is specifically a taxi.

**Safety & Insurance:** Mandates that the TLC set strict safety standards and insurance requirements for AV operations.

**Medallion Protection:** Aims to ensure that existing taxicab medallion owners are grandfathered into any new autonomous licensing regime.

**Data Reporting:** Requires companies to report trip and revenue data, including pickup/drop-off locations and mileage.
